

**Zenator Systems Power User
Commissioning & Completions
Australia**

We require a well-qualified and experienced, Commissioning & Completions professional for the position of **Zenator Systems Power User** representing the Operator, to update and maintain the project completions database and train technical personnel in using the system.

Commencing in 3Q10, the position is a long-term assignment based in Perth, Western Australia. Dayrate is negotiable and will be paid in Australian Dollars (AUD).

You will be Australian and an experienced Instrument, Electrical, Controls, Process or Mechanical Engineer with recognised academic qualifications, a proven track record of continuous career development training in commissioning or operations-related courses. Reporting to the Operator's Commissioning Manager, you will be responsible for ensuring the *Zenator Systems* databases are updated and maintained, inputting information, producing reports, and training expatriate and local engineers with the implementation of *Zenator Systems*. You must be an excellent communicator, with good leadership and teamworking skills. You will have English as your first language. You must possess a high level of computer literacy and be able to diagnose and solve problems.

Intensive training in the use of *Zenator* Asset Integrity Management Systems will be given from our UK office prior to mobilisation. Previous knowledge of *PathMaker Systems* or similar relational database Completions Management Systems will be an advantage.

If you are suitably qualified and genuinely interested in this position please email your CV in MS Word format to recruitment@falconglobal.net. Clearly indicate your availability, expected dayrate and personal health status.

Falcon Global Ltd is an equal opportunity employer and actively encourages all qualified applicants to apply.
