

# **Zenator Systems Super Users & Implementation Specialists**

**GLOBALFALCON**

## **Houston, Texas**

We require engineers with at least 5 years post-graduate experience for the position of **Zenator Systems Super Users and Implementation Specialists** based at our offices in Houston.

You will be an Engineer with recognised academic qualifications, ideally with a track record of design, construction or project management experience working for contractor or Operator organizations. Exposure to working on major infrastructure or heavy engineering projects for the energy industry, specifically during the commissioning phase, will be further advantages.

To be acceptable for the position you must be either a United States citizen or a legally registered alien currently in possession of the necessary permissions to work in the United States.

You will also be an excellent communicator, with good leadership and teamworking skills. You will have English as your first language, or strong second language. Fluency in other languages will be an asset. You must possess a high level of computer literacy and enjoy being able to diagnose and solve problems.

Intensive training in the use of **Zenator Systems** will be given to the successful candidates from our Houston office.

Global Falcon Americas, Inc. is an equal opportunity employer and actively encourages all qualified applicants to apply. Applications will be processed by our affiliate company in the UK.

If you are suitably qualified and genuinely interested in this position please email your CV in MS Word format to [recruitment@falconglobal.net](mailto:recruitment@falconglobal.net). Clearly indicate your availability, expected salary and personal health status.
